SPAX Performance Ltd. Unit 2 Murdock Road, Bicester, Oxon. OX26 4PL

Upgraded and Lowered Springs for Mini Cooper S from SPAX

Following close on the heels of our complete height adjustable suspension kit for the new BMW Mini, the SSX Kit we have just released is a new performance Suspension Spring Kit to fit the new Mini Cooper S models.

A SPAX Suspension Spring upgrade is an ideal first stage for modifying the vehicle to improve both its handling and looks.

The 4 progressive rate chrome silicon springs lower the car by 30mm while offering a substantial performance improvement over the standard suspension springs.

For further details contact your local SPAX dealer or visit their website: www.spaxperformance.com.
