SPAX Adjustable Suspension Kit for Vauxhall Astra 'G'

Leading suspension specialists, **SPAX Performance Ltd** have just introduced an adjustable suspension kit for the Vauxhall/Opel Astra 'G'.

The **SPAX PSX adjustable suspension kit** contains **four 28 stage rate adjustable dampers** with race internals which are matched to **uprated chrome silicon springs** that represent a dramatic improvement over standard specification springs. Note that both the rear dampers and the front struts have 28 stage adjustment now allowing the driver to tune the suspension more precisely than ever before.

The damping adjustments can be carried out **on the car** for quick, easy and precise tuning of suspension settings.

As with all **SPAX Suspension Kits**, quality is paramount and this is underlined by the fact that SPAX is one of the very few British companies to have achieved **German TUV approval**. Each **SPAX** kit is dyno tested to ensure quality and performance before it leaves the factory. All dampers feature the unique **SPAX triple oil seal design** to ensure a long leak-free life and a final epoxy powder coating ensures a lasting superb finish to complete the ultimate performance package.

For further details contact your local SPAX dealer or visit their website: www.spaxperformance.com.
