SPAX Adjustable Suspension Kit for Ford Fiesta Mk3

Leading suspension specialists, **SPAX Performance Ltd** have just added the Ford Fiesta Mk3 to their list of PSX adjustable suspension kit applications.

The **SPAX PSX adjustable suspension kit** contains four **28 stage rate adjustable dampers** which are matched to **uprated chrome silicon springs** that represent a dramatic improvement over standard specification springs. Note that the dampers have 28 stage adjustment

of both bump and rebound force, allowing the driver to tune the suspension more precisely than ever before.

The damping adjustments can be carried out **on the car** for quick, easy and precise tuning of suspension settings.

As with all **SPAX Suspension Kits**, quality is paramount and this is underlined by the fact that SPAX is one of the very few British companies to have achieved **German TUV approval**.

Each **SPAX** kit is dyno tested to ensure quality and performance before it leaves the factory. All dampers feature the unique **SPAX triple oil seal design** to ensure a long leak-free life and a final epoxy powder coating ensures a lasting superb finish to complete the ultimate performance package.

The SPAX PSX kit for the Ford Fiesta Mk3 retails at just **£349.99 including VAT**

For further details contact your local SPAX dealer or visit their website: www.spaxperformance.com.
