# SPAX Adjustable Suspension Kit for Citroen Saxo

Leading suspension specialists, **SPAX Performance Ltd** have just added the Citroen Saxo to their list of **Krypton Gas filled PSX** adjustable suspension kit applications.

The SPAX PSX damper rate adjustable suspension kit will fit Citroen Saxo models made from 1996 onwards.

The **SPAX PSX adjustable suspension kit contains four 28 stage rate adjustable dampers** which are matched to **uprated chrome silicon springs** that represent a dramatic improvement over standard specification springs. Note that all the dampers have 28 stage adjustment allowing the driver to tune the suspension more precisely than ever before.

The damping adjustments can be carried out **on the car** for quick, easy and precise tuning of suspension settings.

SPAX now fill all their adjustable dampers with inert and incredibly stable krypton gas. They have also introduced many new design upgrades to their PSX dampers -see attached document for details.

SPAX PSX kit for the Citroen Saxo retails at **£324.99 including VAT**

For further details contact your local SPAX dealer or visit their website: [www.spaxperformance.com](http://www.spaxperformance.com).
