SPAX Adjustable Dampers for Saab 99

It's a fairly safe bet that any Saab 99 models that are still running their original dampers will be suffering from handling problems by now, but before scouring the websites for hard-to-find original replacements Saab owners would do well to consider the latest offering from suspension masters SPAX.

SPAX now offer updated and adjustable dampers for the Saab 99 from 1968-84 - and at a price that compares favorably with ordinary replacements, so it makes perfect sense to fit the SPAX units and enjoy all the benefits of modern high tech dampers.

The damping adjustments can be carried out on the car for quick, easy and precise tuning of suspension settings. Just a twist of the knob is all that's required and there are 28 stages of adjustment provided for precise tuning to suit individual preferences.

As with all SPAX suspension, quality is paramount and this is underlined by the fact that SPAX is one of the very few British companies to have achieved German TUV approval.

SPAX dampers are dyno tested to ensure quality and performance before they leave the factory. All dampers feature the unique SPAX triple oil seal design to ensure a long leak-free life and a final epoxy powder coating ensures a lasting superb finish to complete the ultimate performance package.

SPAX adjustable 'G' dampers for the Saab 99 retail at £64.09 including VAT
