SPAX SSX Uprated Lowering Springs for Audi A3

SPAX have been designing and manufacturing suspension for Audis for many years and now they have turned their attention to the A3, producing an SSX suspension spring kit that will make the car better, safer and more fun to drive, both on the road or on trackdays.

Just because SPAX springs are sensibly priced they shouldn't be confused with other springs you may have seen. These springs are cold wound, silicon springs and will make your Audi feel truly at home on any Autobahn, the notorious Nurburgring - or a winding English 'B' road for that matter.

SPAX SSX springs for the Audi A3 will lower the car by 45mm.

At just £99.99 including VAT, a set of SPAX SSX uprated and lowered performance springs must be one of the best value and worthwhile improvements any A3 owner could make. SPAX SSX kits are available from all good SPAX retailers, details on the SPAX website... www.spaxperformance.com.

For further details contact your local SPAX dealer or visit our website: www.spaxperformance.com.
