# SPAX SSX Uprated Lowering Springs for Honda Civic Type 'R'

The Honda Civic Type 'R' is quite a formidable car as it stands, but there is room for improvement...

Leading suspension specialists, **SPAX Performance Ltd** have introduced a spring kit for this model to allow you to improve both the way it handles and its stance on the road.

The **SSX kit utilises uprated chrome silicon springs** which represent a dramatic improvement over standard specification springs and lowers the car by approx. 30mm.

As with all **SPAX products**, quality is paramount and this is underlined by the fact that SPAX is one of the very few British companies to have achieved **German TUV approval**.

For further details contact your local SPAX dealer or visit our website:
